

Model: DOWNTOWN NEUTRAL

Codes: 100213794 - L165004061

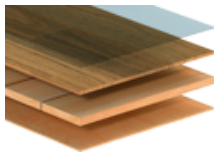

Group: G-267

Format: 12X60X1,2

Thickness: 12 mm

COMPOSITION

	Size	Material	Type of material
Layer 1	0.060-0.070	Oil	Natur treatment
Layer 2	3	Hardwood Layer	OAK
Layer 3	9	Multilayer	Plywood

LABORATORY TESTS

Thermal conductivity	0.17 W/M*K	UNE-EN 12667:2002*
Heat resistance	0.07 M2*K/W	UNE-EN 12667:2002*
Formaldehyde emissions	E1	EN 717-2*
Moisture content	7% +/- 2%	
Flammability	Dfl-S1	EN13501*

FEATURES

- Applying a color oil or varnish on the wood surface in order to get different color ranges.
- Beveled cut on all 4 edges of the board for emphasizing size
- Quality product made with selected raw materials, guaranteeing its full residential use for 30 years as provided by L' Antic Colonial.
- Format where only one board has been used to finish the entire base surface
- It is necessary to apply adhesive for installing it.
- There are consistent color changes between pieces.
- Independent (non-governmental) certificate that guarantees consumers that forest products come from rationally exploited forests
- Noble layer
- Slight smoothing of the wood using a brush to achieve a surface with a slight relief.
- Combination of oils and natural waxes with air drying that leave the wood with open pores. This type of oil penetrates into the wood continuously, even when it is fitted, so that it may have a 'dry' look when opened to be installed. Advantages: Easy repair of dents and scratches, very natural look, and easy maintenance with the right products. Right after installing and before its first use we recommend the use of CLEAN&GREEN AQUA OIL 1 L.
- Is suitable for installing on water radiant heating
- Material with some knots on its surface that can have different sizes depending on the type of wood. These, along with any cracks that may appear, are covered with putty.
- Made with oak wood.
- Material from a North American country.
- Structure consisting of an upper layer that has the noble look of the material, an intermediate layer of coniferous wood that compensates the tensions between the different parts, and a bottom plywood that provides dimensional stability.

PACKING

Boxes	1.008 M2/CS
Pallets	54.432 M2/PAL
Sale unit	M2
Base unit	ST
Net weight	9.3611 KG/M2
Gross weight	9.7639 KG/M2
